1. Results achieved in ADR81/02 fuel consumption testing. Results produced in laboratory test conditions, using sample vehicles without fitment of accessories/customisation, and do not reflect real world driving. Figures should only be used for comparative purposes. 2. Tare Weight where quoted is for the vehicle unoccupied and unladen with full fluids and 10 litres fuel. Weights may change with the addition of equipment. An individual vehicle must be weighed to establish the exact kerb weight and payload applicable to that vehicle. It is the responsibility of the driver to ensure the vehicle is operated within the legal limits.
